

Newly Licensed Oregon Architects

Passing the Architectural Registration Examination and becoming a licensed architect is a significant achievement. It signifies that an architect is skilled in and committed to protecting the health, safety and welfare of the public, and is a significant personal milestone for those that become licensed.

AIA Oregon extends its Congratulations to the Oregon architects newly licensed between November 16, 2020 and February 10, 2021.

AIAO Virtual Lunch + Learn - Boral

AIA Oregon Virtual L+L - Boral

Feb 17 | 12-1pm | 1 AIA LU|HSW Available

"Eldorado Stone Architectural Stone Veneer:
Transforming Spaces through Color & Texture"

This learning course will address the benefits of specifying architectural stone veneer in your design projects, and also provide information on proper installation techniques.

Topics include a breakdown of the innovative mold technology used by the industry's leading manufacturers of architectural stone veneer and what to look for in a high quality product.

Our Next Digital Design Series Presentation

Feb 24 | 5:00-6:00pm

Sponsored by **BetterBricks**

"Luminaire Level Lighting Controls: What to Consider for New Construction Applications and Available Utility Incentives" - CEU Pending

With individual sensors embedded in every LED fixture, luminaire level lighting controls (LLLC) represent the most intuitive, flexible light control systems on the market and deliver significant benefits to both building owners and occupants. During this presentation, Angela Pilant, program manager, Evergreen Consulting Group, will present the benefits of LLLC systems in new construction and Rob Doughtie, outreach manager, Energy Trust of Oregon, will review incentives available.

News & Events

AIAO 2030 Working Group

Feb 18 | 12-1pm

Join AIA Oregon for a discussion on how Oregon firms are tracking and meeting Architecture 2030 goals through AIA's Design Data Exchange (DDx) reporting tool.

This month - Prioritizing projects for 2030 reporting in the DDx

Small to large firms, single discipline or market sector to complex services, each firm structures the task of completing project reporting in the DDx differently. We will discuss strategies to prioritize which projects can be or should be entered and what depth of data is a match for your organization.

We will take a look at the updates to the DDx database and website since last year's reporting cycle and implications for your firm's project data collection process. [Learn More and Register»](#)

UO School of Architecture & Environment - Career & Networking Fair

Feb 18 | 11am | This event is fee-based for firms and free for students.

Registration closes February 12

The UO School of Architecture and Environment (SAE) 2021 Career and Networking Fair is a virtual event that connects firms that represent SAE fields with students in those majors. This year's fair has been rebranded from "Recruitment Fair" to "Career & Networking Fair" to better reflect the current economic conditions and the reality that not all firms that want to connect with students will be hiring. The event is virtual, and firms and students can sign up using the [Handshake](#) platform.

Registration closes on Feb 12, but firms are encouraged to sign up ASAP so they can create the sessions that they want to offer within the platform and still leave time before event day for students to find them and sign up. [Sign up on Handshake»](#)

Design Annual Published

The AIA Oregon Design Annual, previously a publication of AIA Eugene, is now available. An annual publication recognizing award winning projects and articles about our built environment, the focus of this year's publication is "Inclusive Spaces".

Thank you to all our contributors for your support in raising the visibility of our members and our industry, highlighting the chapter's recent accomplishments, and sharing the quality and value of our work in the community. [View the Design Annual»](#)

Energy Trust Net Zero Fellowship Research Presentations

February 17 or 23 | 1.5 AIA HSW and 1.5 CCB Available

Energy Trust of Oregon's 2019 Net Zero Fellow, Katy Anderson of Glumac, is sharing the results of her research in a special virtual presentation, and you're invited. Katy will present her research on cost drivers associated with net-zero multifamily new construction, along with resources that design teams and energy modelers can use to estimate costs early in design. Join us for a free virtual event and earn 1.5 AIA HSW and 1.5 CCB continuing education credits.

You have two more opportunities to see her presentation. [Learn More and Register»](#)

Pandemic as Portal: Creating a Just Future on Earth

OSU Spring Creek Project Lecture Series

Tuesdays Jan 12-Mar 9 | 6pm | Free and Open to the Public

This series imagines the pandemic as a portal between two worlds, pre- and post-pandemic. Presentations will explore questions about how we can use this moment to re-image the world on the other side. The speakers in the series come from many perspectives, from writing, philosophy, and history to architecture, music, and filmmaking. [Learn More and Register»](#)
