Architecture in Turbulent Times: Equity, Environment, Health, & Economy - An AIA Learning Event

August 12

Live and on-demand sessions for up to 6.25 HSW & 14.5 LUs /RIBA.

The simultaneous crises of climate change, COVID-19, a looming economic depression, and systemic racial injustice have exposed structural failings that architecture, and society, must address. It's a perfect storm that has created an unprecedented call for change. Where do we go from here?

This one-day virtual learning event is centered around change. Twenty sessions dive into the important, intersecting issues of equity, the economy, the environment, and public health. [See the Session Schedule»](#)

You'll learn from a diverse range of experts in architecture and beyond—architects, climate champions, civic leaders, leading academics, and more.

Be part of the solution

August 13 | 12-1pm

Join AIA Oregon and Energy Trust of Oregon New Buildings program for a discussion on how Oregon firms are tracking and meeting Architecture 2030 goals through AIA's Design Data Exchange (DDx) reporting tool.

This working group meeting will focus on how having an office champion, dedicated to supporting project teams with 2030 reporting, can drive energy efficiency goals throughout design. This topic is in alignment with the application launch for the Energy Trust 2021 Net Zero Emerging Leaders internship grant application.

The Architects Plan to Optimize Tax Incentives for 2020

BRAYN Consulting is excited to partner with AIA Oregon and present a three-webinar series titled, "The Architects Plan to Optimize Tax Incentives for 2020." BRAYN's mission is

to guide businesses to greater value through specialty tax credits and incentives such as R&D, 179D, 45L, and Cost Segregation.

BRAYN founder and CEO, Brady Bryan, will be presenting the series. Brady's goal is to educate businesses and people on how to avail themselves of the little-known tax incentives designed for them. In this way, he knows BRAYN can make a meaningful impact on real people. It's your money – let us help you keep it!

Repurposing Light Rail Cars for Social Impact

Deadline Extended! New Submission Deadline: August 20, 11:59pm

The Center for Public Interest Design would like to invite you to participate in a strategic initiative to explore visions for the repurposing and reuse of retiring MAX cars to benefit communities in the Metro region. While the reuse of these cars may be approached from any angle, the hope is that they will be rooted in an acknowledgement of Portland's need to act quickly and creatively to address homelessness, climate change, income equality, housing insecurity, and racial inequity among other important social and environmental issues.

Virtual Happy Hours

Our Virtual Happy Hours have regular discussion topics, often based on an the

**AIA NATIONAL
RESOURCES**

T@3's "Message From" or that week's Digital Design Series presentation, and include breakout rooms for a more engaging experience.

This week's discussion topic will be a Town Hall discussion on the National Candidates being voted on for office at the AIA Annual meeting in September. The intent is to discuss

the candidates based on their profile and what some of us know about them, discuss what is the leadership that AIA Oregon expects/wants to see from national leaders, and the relationship between a more diverse profession, AIA leadership, and the election process [Register »](#)

8/14 VHH Topic - Join Kelly Chanopas, AIA and Octavio Gutierrez, AIA of the Committee on Equity Diversity and Inclusion (CoEDI) to discuss allyship and the practice of architecture. [Register»](#)

8/21 VHH Topic - Strategies for growing AIA membership and engaged participation. [Register»](#)

To accommodate some of the changes we are making, you now need to register for each Virtual Happy Hour you plan to attend, so we know the make up of the group ahead of time.

AIA Oregon Digital Design Series

AIA Oregon's the Digital Design Series is a 1 hour virtual session with various presenters on Zoom that occurs Wednesdays at 5:00pm. The topics of this series are design-focused, are based on the concept of Learning from Sharing, led by people in our community and should provide opportunities for discussion.

If you have an idea for an upcoming Digital Design Series event, or would like to participate, please contact info@aiaoregon.org

August 5 Recording Available

At our Digital Design Series event yesterday (August 5), Shannon Sardell, AIA, gave a comprehensive presentation on Historic Preservation and how her ongoing adventures in the private practice of architecture include supporting building owners and their aging building stock with lasting, pragmatic design solutions that are sensitive to each unique history, location, and site.

Our Next Digital Design Series Event

InProcess - The Portland Living Building

August 12 | 5:00-6:00pm

In this edition of InProcess, we will hear from Justin Brooks, Principal at ZGF and Marc Brune, Principal and mechanical engineer with PAE. They will discuss the Portland Living Building as a case study.

Located at SW First and Pine in the heart of the city's historic Skidmore/Old Town District, the mixed-use building is designed to be the first fully certified Living Building in Portland and largest urban commercial Living Building in the world. The PAE Living Building tells the story of Portland: aspirational, progressive, and yet deeply rooted in Pacific Northwest history. The design is integrated into the fabric of a historic neighborhood embracing a forward-looking future for the city with the highest possible energy performance, sustainability standards, and architectural aesthetic. Marc Brune, Principal, PAE, and Justin Brooks, Principal, ZGF, will discuss the design process, focusing on three areas: performance, pro forma, and site-constraints.

Perfecting Policy with Pilots

August 11 | 10am PDT

PropertyFit is not your traditional loan. It is an innovative financing tool in Multnomah County that unlocks building performance and cost-savings in commercial, industrial and multifamily (5+ units) properties. PropertyFit can support projects in existing buildings, new construction, and major renovation—transforming what was once a capital expenditure into an investment in improved performance. Many PropertyFit projects are cash flow positive from day one. PropertyFit can be a valuable tool for AIA members looking to make performance and safety improvements to their facilities, especially while occupancy may be reduced due to COVID-19.
