## 2019 OSSC Updates

### Registration now OPEN!

Samir Mokashi, Principal at Code Unlimited, will be teaching a 2-hour code seminar, "2019 OSSC Updates". The 2019 Oregon Structural Specialty Code went into effect on October 1, 2019 with a 3-month phase in process (either the 2014 OSSC or 2019 OSSC can be used as basis of design for permit submittal).

The course will focus on understanding the changes

between the most recent Oregon codes and the 2019 OSSC adoptions, including 2018 IBC codes. Regulations on the issues common to most building types and those that may be commonly misunderstood or misapplied will be covered. This course will explain what changed, why it changed, and how to apply these updates correctly in your projects.

**ATTN: AIA Oregon Member Firms**

AIA Eugene would like to invite you to present in January at our annual Professional Pin-Up, at Lawrence Hall (UO). The format of the presentation is similar to an academic studio review. Multiple firms will be presenting concurrently, with rotating reviewers comprised of students, faculty, and local professionals. VR and traditional presentation formats are acceptable.

Give future architecture interns the opportunity to witness 'real life' project design processes from local and regional architectural, planning, construction, and engineering professionals. Showcase your projects during any phase of design and/or construction. Invite multiple professions involved with the project to present and discuss how collaboration affects design.

Respond to [kwendland@aiaoregon.org](mailto:kwendland@aiaoregon.org) if you would like to participate or learn more. Thank you!

## Recruitment Fair

Thursday, February 20, 2020 | Save the date & watch for an email inviting you to participate!

They will opening the annual Recruitment Fair registration to employers soon!

What: UO School of Architecture & Environment Recruitment Fair – a one-day tabling event in Lawrence Hall to connect employers with students as prospective hires and interns

How: Registration will open soon. They will send out an access link to a large list at least ½ day prior to registration opening to give advanced notice.

Space is limited and demand is high for participation this year (which is why we're still figuring out our space capacity!

### Architects Without Borders - Call for Volunteers

Help needed for two projects

For the [Debre Birhan School](#) in Ethiopia they need a volunteer who can work from existing construction drawings of a composting latrine building to produce one or two 3D exterior color images showing construction materials and details such as brick coursing, as well as the sloping site where the facility will be built. This job is estimated at three to six hours and the work product is needed before the end of October.

For the [Q Center](#) renovation in Portland they need one or two volunteers with skills in AutoCAD, Rhino, and/or SketchUp to create 2D and 3D images. Volunteers can expect to contribute a few hours of time per week on an ongoing basis.

Neither of these volunteer opportunities requires travel. If you are interested send your name, contact information and a brief summary of your relevant skills to [volunteer@awboregon.org](mailto:volunteer@awboregon.org). Please include the name of the project in the subject line.
