Happy Holidays from AIA Oregon

Dec 21, 2023

Holiday AIA Office Closures

AIA Oregon will be closed Dec 25–Jan 1. We wish everyone a happy holiday season, and look forward to starting up again in the new year.

AIA National will be also be closed Dec. 25–Jan. 1 During this time, AIA customer support will not be available.

There will not be a weekly newsletter on December 28. Look for our next T@3 Newsletter on January 4.

Have a safe and Happy Holiday season, and see you in 2024!

AIA Oregon Call to Action - Duty to Defend

In 2024, AIAO will again partner with ACEC (Council of Engineers) in an attempt to pass Duty to Defend legislation in Oregon. Our legislation will remove the contractual risk of design firms spending huge sums to defend against third-party claims unless the liability or fault of the designer is first established.

WE NEED YOUR HELP! This is a detailed Call to Action from your Legislative Action Committee - please take the time to read it!

Dana Ing Crawford Memorial Scholarship

In Loving Memory of Dana Ing Crawford

This Memorial Scholarship has been established to honor Dana Ing Crawford. Dana was an ardent supporter and mentor of women engaged in the profession of Architecture.

To continue her legacy of inspiring and supporting women who want to become Architects, Dana's friends and colleagues at ORW Architecture have established a scholarship fund in her name through the **Oregon Community Foundation**. The Dana Ing Crawford Memorial Scholarship will be awarded to women in Oregon (high school graduates or the equivalent) in their pursuit of an undergraduate or graduate degree in Architecture.

To encourage both individuals and architecture firms to participate, ORW Architecture has made a lead gift of \$5,000 and a generous offer to match the contributions for the first \$20,000 donated to this cause. Scholarships will be awarded when the fund balance reaches \$50,000. We look forward to your support!

AIAO Virtual L+L - Benjamin Obdyke Jan 17 | 12-1pm | Virtual Event 1 AIA LU|HSW Available

Healthy Home: All control layers working together

Buildings have become a complex network of control systems which must work together to prevent failure, but often times these systems are incorporated incorrectly and lead to significant damage and unhealthy living conditions. This course will explore the four control layers in the building envelope and how they must work together to create a healthy home. [Learn More and Register](#)
